The following is an examiner's statement of reasons for allowance: It is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious: a splined hollow quill shaft; a central shaft extending from the drive head up the hollow center of the quill shaft; where the ends of the hollow quill shaft and the central shaft remote from the drive head mount opposite ends of a flexible cantilever beam on a face of which or on opposed faces of which are mounted one or more strain sensing transducers, together in combination with the rest of the limitations in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
